DETAILED ACTION

1. This communication is in response to Applicant's amendment filed on June 19, 2006. Claims 1 and 3-17 are pending in this application.

Priority

2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter:

3. The prior art of record (Embrey US Pat. No. 6,311,170) teaches a method of making payments from a plurality of payers to a plurality of payees through a service provider, an authorization is obtained from a plurality of payers which allows a service provider to make payments, on behalf of the plurality of payers, to a plurality of payees. A trusted intermediary financial institution periodically receives payment information and payment authorization from the plurality of payers. The trusted intermediary financial institution automatically transfers funds, in amounts only consistent with at least the payment information, to the service provider.

Even though, the prior art of record teaches a payment method for performing the above mentioned steps, the prior art of record fails to teach a method and a corresponding system for managing a payment between a seller and a buyer using a network, comprising the steps of sending bank account information of the buyer, after the seller terminal has verified said buyer, directly to a bank server of said buyer via said network using said buyer terminal, said bank account information of said buyer including an encoded PIN number of said buyer; sending bank account information of said seller and a payment amount, after said seller terminal has verified said buyer, directly to said bank server of said buyer via said network using said seller terminal; and transferring the payment amount to a bank account of said seller, which is indicated by said bank account information of said seller, directly from-said bank account of said buyer, which is indicated by said bank account information of said buyer, using said bank server of said buyer, said transfer taking place over a line separate from said network. For these reasons claims 1 and 9 are deemed to be allowable over the prior art of record, and claims 3-8 and 10-17 are allowed by dependency.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee, and to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled Comments on Statement of Reasons for allowance.
